HELP FOR THOSE IN NEED

ENERGYSHARESM

When Things Get Tough

Anyone can run into hard times. A personal crisis, the loss of a job, a fixed income that doesn't cover unexpected expenses...things can go wrong. We understand that.

That's why Con Edison has a fund — *EnergyShare* — to assist customers in need. Grants from the fund help Con Edison customers keep the lights and heat on when they fall behind on their bills. And, *EnergyShare* grants can be added to other assistance programs, such as the Home Energy Assistance Program (HEAP).

Having Trouble Paying Your Energy Bills?

Residential customers who have an active disconnect notice may qualify for *EnergyShare* and receive a one-time grant of up to \$200 toward the bill.

To qualify, at least one payment must have been made. Customers must also be eligible for government financial assistance and/or meet federal HEAP income guidelines.

If You Need Help, Talk to HeartShare

EnergyShare is administered by **HeartShare** Human Services of New York, one of the city's oldest and best-known community service agencies. For more than 90 years, **HeartShare** has been reaching out to New Yorkers in distress.

HeartShare can let you know if you're eligible for an *EnergyShare* grant. For more information, call 1-877-480-SHARE (1-877-480-7427).

If You Would Like to Help

EnergyShare is funded by tax-deductible contributions from caring Con Edison customers, employees, businesses, foundations, and other friends of Con Edison. Each dollar contributed is matched by Con Edison.

If you want to help keep the lights and heat on for a fellow New Yorker, please send your contribution to:

EnergyShare
P.O. Box 713
Buffalo, NY 14240-0713

Or, when you pay your Con Edison bill, you can add exactly \$1 to the total amount due, and it will be donated automatically.

For more information call:
1-877-480-SHARE (1-877-480-7427).

***EnergyShare* —
now that's the easy way to care!**
