

SMART WAYS TO USE LESS

Print Hint

Only print what you need. You'll save paper. You'll save ink. You'll save trees. You'll save money...you get the picture.

We Can Do It

Together, Americans saved about \$19 billion on their utility bills in 2008 with the help of Energy Star products and programs.

78 Is Great

Set your air conditioner no lower than 78 degrees. Lower settings can increase your cooling costs by up to 40%.

Get a Green Fridge

If you're buying a new fridge, upgrade to an Energy Star-rated model. The energy savings could cut your electric bill by \$50 a year.

Kid Power

Make kids energy smart. Turn them on to our cool kids' web site at conEd.com/kids.
