## **EDI - 814 CHANGES FOR BROOKLYN ACCOUNTS**

In order to increase meter reading efficiency, Con Edison sometimes needs to modify meter-reading routes. As a result, customer account numbers are updated to accommodate the new route schedule and trip assigned.

Starting March 1<sup>st</sup>, and for the next 21 trip days, ESCOs will be receiving changes (814C) reflecting the new account numbers for those affected. This change will affect approximately 80,000 accounts in Brooklyn and will begin with 61, 62, 67 or 68. No action is required.
