

Follow-up Information on the Canceled PowerMove Program

On February 25th, 2014 the Public Service Commission issued an order requiring all utilities to cease their ESCO referral programs within 60 days of issuance of the order. To remain in compliance, Con Edison will be ending the ESCO Referral Program (PowerMove) by close of business day, on March 31st, 2014. Please be aware that all PowerMove Supplement Agreements on file will no longer be valid after that date.

A separate communication has been sent to all ESCOs currently participating in the program providing them with fee information through March 31st, 2014.

We ask that you remove any advertisements that you may have regarding the PowerMove Program.

For your reference, the PSC order containing the directive to cease all referral programs is Case 12-M-0476 and it is accessible via the PSC website.
