## **EDI 814HU Requests Submitted on 7/30/2013**

On 7/30/13 Con Edison received a historical usage request file (814HU) for approximately 42,000 accounts from one ESCO. As a result of this enormous request, ESCOs who subsequently submitted 814HU requests have been impacted and will experience a delay in receiving the 867HU responses. We apologize for the inconvenience.
