

Log On & Learn Webinars 2025

<p>March Date: 3/11 Time: 1pm</p>	<p>Steam Meters 101</p> <p>Join us for an informative webinar on everything you need to know about steam meters! Our experts will guide you through:</p> <ul style="list-style-type: none">• How we maintain steam meters to ensure optimal performance• The frequency of meter replacements and what to expect.• Important information about receiving a letter if your meter is due for a swap this year.• The rigorous testing process we use to ensure meter accuracy.• Steps to take if you suspect your meter is reading incorrectly (and the implications if the test shows otherwise) <p>Don't miss this opportunity to gain valuable insights and have your questions answered by our knowledgeable presenters. Whether you're a seasoned professional or new to steam meters, this webinar will provide you with the essential information you need.</p> <p>Registration link: https://events.teams.microsoft.com/event/ed97cff5-cd79-487c-a443-1549839aac37@e9aef9b7-25ca-4518-a881-33e546773136</p>
<p>March Date: 3/25 Time: 1pm</p>	<p>Understanding Your Steam Bill</p> <p>Join us for an informative webinar designed to help Con Edison steam customers better understand their bills and the various charges. This session will cover:</p> <ul style="list-style-type: none">• Understanding Your Bill: Break down the components of your steam bill, including charges, fees, and how usage is calculated.• Billing Adjustments: Learn about different types of billing adjustments and how they can impact your steam costs. <p>Our experts will guide you through each topic, providing clear explanations and answering your questions. Whether you're new to steam services or looking to deepen your understanding, this webinar will equip you with the knowledge to manage your steam costs effectively.</p> <p>Registration Link: https://events.teams.microsoft.com/event/da94a55c-2257-4f12-89a6-8b5da842022c@e9aef9b7-25ca-4518-a881-33e546773136</p>

INTERNAL

<p>April Date: 4/15 Time: 1pm</p>	<p>“Optimizing Your Steam Equipment: Best Practices for Efficiency and Savings”</p> <p>Join us for a comprehensive webinar on optimizing your steam equipment for maximum efficiency and cost savings. Our experts will cover:</p> <ul style="list-style-type: none"> • Best practices for running an efficient steam system. • How often to inspect your steam traps and what to look for. • Key service providers in town who can assist with steam equipment maintenance. • Updated statistics on money wasted due to leaks. • Best practices in pipe insulation. • Building envelope measures to retain more steam inside your building, discussed by experts from our Energy Efficiency team. <p>Don’t miss this opportunity to learn from industry leaders and get practical tips to enhance your steam system’s performance.</p> <p>Registration Link: https://events.teams.microsoft.com/event/5c49bedb-b7de-439c-9da9-393c58936ce6@e9aef9b7-25ca-4518-a881-33e546773136</p>
<p>April Date: 4/29 Time: 1pm</p>	<p>It’s That Time Again: Seasonal Turn On/Turn Off</p> <p>Join us for a practical webinar on managing your steam system through seasonal changes. Our experts will cover:</p> <ul style="list-style-type: none"> • How to request to have your steam turned off after the winter and turned back on in the fall. • Who to contact for these requests. • The typical timeline for processing these requests. • The associated charges for turning your steam system off and on <p>This webinar will provide you with all the essential information to ensure a smooth transition between seasons, helping you maintain an efficient and cost-effective steam system. Don’t miss this opportunity to get your questions answered and learn from our knowledgeable presenters.</p> <p>Registration Link: https://events.teams.microsoft.com/event/842adaa8-5858-4231-a29c-6da34f8f08c3@e9aef9b7-25ca-4518-a881-33e546773136</p>
<p>May Date: 5/20 Time: 1pm-1:30pm</p>	<p>Stop Pouring Your Money Down the Drain: Condensate Reuse Strategies</p> <p>Join us for a webinar on how to maximize the reuse of condensate and get the most out of your waste heat instead of flushing it into the sewer. Our experts will share:</p> <ul style="list-style-type: none"> • Effective strategies for condensate reuse.

INTERNAL

	<ul style="list-style-type: none"> • The benefits of reusing condensate in your steam system. • Practical tips to implement these strategies and improve efficiency. <p>Don't miss this opportunity to learn how to enhance the sustainability and efficiency of your steam system, while gaining valuable insights and actionable advice.</p> <p>Registration Link: https://events.teams.microsoft.com/event/42a307d1-3a9e-4d99-bc5a-b91acc1c66f7@e9aef9b7-25ca-4518-a881-33e546773136</p>
<p>June Date: 6/24/25 Time: 1pm-2pm</p>	<p>The Clean Energy Future is Now: Decarbonizing our Steam System</p> <p>Join us for an in-depth webinar on Con Edison's plans to reduce the carbon emissions of its steam system. Our experts will discuss:</p> <ul style="list-style-type: none"> • Con Edison's strategy for decarbonizing the steam system by 2050. • Key insights from the Steam Decarbonization Study filed with the New York Public Service Commission. • Three recommended decarbonization projects: electric boilers, thermal energy storage, and an industrial heat pump. <p>Don't miss this opportunity to learn about the innovative steps being taken towards a sustainable, low-carbon future.</p> <p>Registration Link: https://events.teams.microsoft.com/event/c0c039e4-968e-4108-adba-c8562375c683@e9aef9b7-25ca-4518-a881-33e546773136</p>
<p>July Date: 7/29/25 Time: 1-1:30pm</p>	<p>What's Ours, What's Yours? Understanding Equipment, Piping, Valves, and Responsibilities</p> <p>Join us for a webinar on navigating the complexities of steam systems and understanding the responsibilities for equipment. Our experts will cover:</p> <ul style="list-style-type: none"> • The essential components of steam systems. • The division of responsibilities between customers and Con Edison. • Tips on maintaining your steam equipment. <p>Whether you're a seasoned steam user or new to the system, this webinar will empower you with the knowledge to manage your steam structures confidently. Don't miss this opportunity to gain clarity and ensure your steam system operates smoothly and efficiently.</p>
