

## Energy Exchange Program

## Success Story: Boosting Home Comfort &amp; Efficiency

Customer

Florence Dryden

Participating Contractor

Phoenix Home Consultants

Location

Westchester, NY

## Testimonial

While charming, my over-a-century-old home needed some energy-efficient upgrades that would also help lower monthly costs. When I discovered **Con Edison's Energy Exchange Program**, I had to take advantage of the opportunity to switch to electric appliances with incentives that covered 99% of the cost!

With support from **Phoenix Home Consultants**, we installed a heat pump water heater, induction range, electric dryer, and upgraded my electrical panel. The contractors were courteous, professional, and truly provided excellent service.

Since the upgrades, I've already noticed big benefits. I'm no longer worried about gas use and I love how quickly the induction range heats up. The larger, more powerful water heater delivers hot water to the second floor faster. And I'm thrilled with the upgraded electrical panel.

The whole process was seamless from start to finish. To anyone thinking about joining the Energy Exchange Program, my advice is: don't wait—it's phenomenal and saved us thousands of dollars. We're forever grateful!

—Florence Dryden

## Upgrades Installed

Electric Induction Stove

Heat Pump Water Heater

Electric Dryer

Electric Panel

## Improvements Included

- Induction Stove
- Heat Pump Water Heater
- Electric Dryer
- Electric Panel
