## Ask Your Aggregator

Con Edison has a program that will pay you to temporarily use less energy when we ask.

You can sign up directly with us,\* or work with an aggregator who will do it for you.

If you choose to work with an aggregator, ask:

- Which programs are available, and which is best for my building?
- What's a communicating interval meter, do I need one, and if so, can you help me install it?
- Can you help me navigate permitting requirements for backup generators?
- Are there any upfront costs associated with enrolling?
- Can you help me develop a tailored action plan? How will you do this?
- What's your cut of my smart usage revenue?
- How will you help me manage my performance?
- What happens if I don't meet my goals during an event?
- How long are events?
- How often are events called?
- How will you notify me when an event is called?
- Why should I enroll with you versus another aggregator, or directly with Con Edison?
- Can you help me take advantage of other Con Edison incentive programs?
- Can you tell me about some successful projects you've implemented for Con Edison?

\*For enrollments of 50 kW or more
