

SERVICE CLASSIFICATION NO. 13

BULK POWER - HIGH TENSION - HOUSING DEVELOPMENTS

Applicable to Use of Service for

Light, heat, and power used in an apartment house development in which the entire electrical requirements of the development are supplied by the use of electricity purchased from the Company, subject to the Special Provisions hereof.

Character of Service

Continuous service supplied at a single service point. Frequency and voltage specified are approximate.

High Tension Alternating Current - 60 cycles:

Three phase at 26,400 volts or such higher voltage as may be specified by the Company in the light of the magnitude or location of the load or other physical conditions.

Rate - Bulk Power - High Tension - Housing Developments - Time-of-Day

Applicability: To Customers whose maximum demand in any month between January 1, 1975, and September 30, 1988, exceeded 3,000 kw (Phase 1); to Customers whose maximum demand in any month between January 1, 1980, and September 30, 1988, exceeded 1,500 kw but was equal to or less than 3,000 kw (Phase 2).

Time-of-Day Rates also apply to:

- (1) any Customer whose monthly maximum demand after September 30, 1988, exceeds 1,500 kw in any annual period ending September 30;
- (2) any new Customer whose monthly maximum demand in the Company's estimate will exceed 1,500 kw during the first year of service; and
- (3) successors of Customers referred to above.

A Customer with multiple meters whose demand meter registrations are added together for billing purposes pursuant to the provisions of this Rate Schedule shall be billed hereunder if the Customer qualifies for the rate pursuant to one or more of the criteria stated above and if at least one of the meters:

- (1) has registered 500 kw or more in any month in the 12-month period ending October 6, 1989; or
- (2) registers 500 kw or more in any month in any annual period ending September 30 after October 6, 1989.

Beginning with bills having a "from" date on or after May 1, 2006, Customers who purchase power and energy from the Company under this Rate Schedule will take service under Rider M unless they are not eligible for Rider M. Customers served under Rider M are charged for their actual energy usage priced at the applicable hourly prices, in place of the per-kilowatt-hour component of the Market Supply Charge ("MSC") and the Adjustment Factor – MSC. Customers not eligible for Rider M who purchase power and energy from the Company under this Rate Schedule are subject to the per-kilowatt-hour and per-kilowatt components of the MSC and the Adjustment Factor – MSC.

Minimum Charge

The minimum charge for demand for any monthly billing period shall be the charge for 8,500 kilowatts of demand during the on-peak period.

Minimum Monthly Charge

The Customer will be subject to the Minimum Monthly Charge, as described in General Rule III-11(U), when the Minimum Monthly Charge exceeds the monthly pure base revenue. The Contract Demand is determined each month and is equal to the Customer's highest registered demand in the most recent 18 months, or the highest registered demand on the Customer's account if the account has less than 18 months of demand history, provided, however, that if a Customer requests and receives a reduction in the Contract Demand (as explained in General Rule III-11(U)), the demand history prior to the reduction will not be considered in determining the Contract Demand for subsequent months.

Additional Charges and Adjustments

Customers taking service under this Rate Schedule are subject to the Market Supply Charge ("MSC") and Adjustment Factor - MSC, as described in General Information Section VII and shown on the Statement of Market Supply Charge and Monthly Adjustment Clause and on the Statement of Adjustment Factor - MSC; provided, however, that Customers taking service under Rider M are subject to charges for their actual energy usage pursuant to Rider M, in place of the per-kilowatthour component of the MSC and the Adjustment Factor - MSC. Customers taking service under this Rate Schedule and Customers taking service under the Retail Access Rate Schedule are subject to additional delivery service charges, consisting of the Monthly Adjustment Clause ("MAC"), Adjustment Factor - MAC, System Benefits Charge, Renewable Portfolio Standard Charge (effective October 2005), and other charges and adjustments, as applicable, as described in General Information Sections VII and VIII-(B) and shown on the related Statements.

Increase in Rates and Charges

The rates and charges under this Service Classification, including minimum charge or Minimum Monthly Charge and Additional Charges and Adjustments described above, are increased by the applicable percentage as explained in General Information Section VIII-(A) and shown on the related Statement.

Determination of Demand

The Company will install a demand measuring device of a type approved by the Public Service Commission for the determination of the maximum demand. (See General Rule III-11 (D) for definition of maximum demand.) When demand is determined by an interval meter, the maximum demand for each respective time period shall be the integrated demand occurring during the two highest contiguous fifteen minute intervals during each applicable time period.

Terms of Payment

Net cash on presentation of bill, subject to late payment charge in accordance with provisions of General Rule III-11 (N).

Term

Ten years from the date of installation of service hereunder; terminable thereafter by the Customer upon one years' prior notice in writing, and by the Company in accordance with law or the provisions of this Rate Schedule.

Special Provisions

- (A) The Company's service and supply of electric energy under this Service Classification will not be furnished otherwise than directly to a Customer of the Company, solely through the Company's meter or meters, upon the individual application of such Customer upon the form of application prescribed in this Rate Schedule, and will be supplied only on condition that such electric service is for the Customer's own use and, except as provided for in Rider G, will not be remetered (or submetered) or resold, assigned or otherwise disposed of to another or others, provided that the Customer may, except as otherwise prohibited in Special Provision B of this Service Classification, redistribute or furnish electric energy for the use of the Customer's tenants or occupants in the building or premises at which the Customer is supplied with electric service under this Service Classification, and provided that the Customer shall not resell, make a specific charge for, or remeter (or submeter) or measure any of the electric energy so redistributed or furnished.
- (B) The Company will not furnish electric energy to any Customer, for the purpose of redistributing such electric energy in residential buildings in which the internal wiring has not been installed prior to January 1, 1977, except upon a waiver of this provision by the Public Service Commission.
- (C) Electricity will be supplied under this Service Classification only if, and so long as, each of the following conditions is satisfied:
 - (1) The Company's Customer is the owner or lessee of the building or buildings supplied hereunder.
 - (2) The building or buildings are used and occupied predominantly for residential purposes, or for purposes ancillary to such residential use and occupancy.

Special Provisions - Continued

(D) Where a Customer's account under this Rate is metered with multiple meters and where the registration of some of the meters is not on a time-of-day basis, the registrations of such meters will be billed on the time-of-day characteristics indicated by the time-of-day meter; provided, however, that such Customer will not be eligible for service under Rider M.

(E) Rates and charges stated without reference to a specific month shall apply to all electric service supplied hereunder on and after the effective date hereof. Where a bill includes periods before the effective date and after the effective date, the rates and charges applicable will be prorated based on the number of days of service rendered before the effective date and on and after the effective date related to the total number of days in the billing period.

Rates and charges referable to a specific month ("month-specific rates and charges") shall apply to all electric service supplied hereunder after the last day of the preceding month and through the last day of the named month. Where a bill includes periods before and after the first calendar day of a month, the month-specific rates and charges applicable will be prorated based on the number of days of service rendered before the first day of the month and on and after the first calendar day of the month related to the total number of days in the billing period.

(F) The following Riders may be applied to this Service Classification: A, G, M, O, P, U, V and W.

(G) For general rules, regulations, terms and conditions under which service will be supplied, see General Information Section III.

(H) For form of application under this Service Classification, see General Information Section IX.

(I) For information relating to individually negotiated contracts entered into pursuant to the provisions of this Service Classification, see Appendix A to this Rate Schedule.
