STATEMENT OF VALUE OF DISTRIBUTED ENERGY RESOURCES VALUE STACK CREDITS

Notes:

1. For the NYISO Day-Ahead Hourly Prices by zone (i.e. H, I, or J), please refer to the NYISO's web page:
<http://www.nyiso.com>
2. The credit under Alternative 2 will be calculated by multiplying net injections starting at the hour beginning 2 PM through the end of the hour beginning 6 PM in the months of June, July, and August by the Value Stack Capacity Component Rate 2 and summing these credits up in the billing period. The Value Stack Capacity Component Rate 2 will be \$0/kWhr outside of the months and hours listed above.
3. These rates are only applicable to customers who have, during the effective period of this Statement, paid 25% of their interconnection costs or who have executed their interconnection agreement if no such payment is required and will remain in effect for such customer-generators for the period of time as outlined in Rider R.
